

Carbon Reduction Plan

The Ambassador Medical Surgical Equipment & Instrument Trading Co LLC

Document Reference	AMS-CRP-2026
Version	1.0
Effective Date	5 May 2026
Approved By	Rashid Gul, Director

1. Our Commitment

The Ambassador Medical Surgical Equipment & Instrument Trading Co LLC recognises the importance of responsible and sustainable business practices within the healthcare sector.

As a Dubai-based supplier specialising in refurbished and pre-owned medical equipment, including endoscopy systems and related healthcare technologies, we understand the environmental impact associated with logistics, transportation, operational energy usage, packaging, and supply chain activities.

We are committed to developing practical and scalable sustainability initiatives that reflect the size and nature of our organisation while supporting responsible long-term business growth.

2. About Our Business

Ambassador Medical Supply supports healthcare providers through the sourcing, refurbishment, distribution, and supply of quality medical and surgical equipment across international markets.

A core part of our business model focuses on extending the operational life of medical devices through refurbishment and responsible reuse, helping reduce unnecessary disposal and limiting the environmental impact associated with manufacturing replacement equipment.

3. Environmental Approach

Our environmental priorities include promoting refurbishment and reuse of medical equipment, reducing operational waste, encouraging responsible packaging practices, improving logistics efficiency, and supporting environmentally responsible supplier relationships.

4. Carbon Reduction Initiatives

Ambassador Medical Supply is implementing practical initiatives including efficient shipment planning, responsible resource usage, reduced paper consumption through digital documentation, improved packaging efficiency, and environmentally conscious operational practices.

5. Future Development

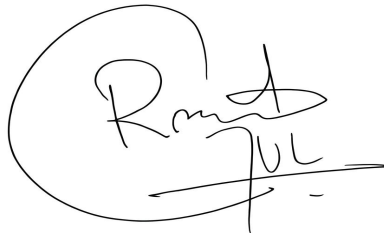

As the business continues to grow, Ambassador Medical Supply intends to further strengthen its sustainability initiatives through gradual development of environmental monitoring and internal reporting practices appropriate to the scale of the organisation.

We remain committed to continuous improvement and responsible operational development.

6. Governance and Review

Responsibility for this Carbon Reduction Plan rests with senior management and will be reviewed periodically to ensure ongoing relevance, practicality, and alignment with the company's operational activities.
